Agenda Item 12: Discussion of Recent Amendments to Business and Professions Code Section 1638.1 and Status of Additional Proposed Amendments

Ms. Ortiz presented the meeting materials for this item.

Committee Member Gallia asked who approved the recent amendments to Business and Professions Code (BPC) section 1638.1. Ms. Welch responded that she and Board staff drafted a legislative proposal that contained the amendments to resolve concerns raised by the Committee during application reviews. The legislative proposal was presented to the Board during public meetings and included in the Board's 2024 Sunset Review Report. During the Sunset review process, legislative committees reviewed the amendments in the Board's Sunset bill through the public legislative process.

Committee Member Gallia requested information from the Board about the new statutory changes around removing the "limitations" on permits and requested an explanation of the Committee's involvement and disclosure in the decision to amend BPC section 1638.1. Ms. Welch stated that Board staff made the Committee aware of the amendments several times over the past two years. However, the Committee does not have jurisdiction to review legislation, so the Committee, as a whole, could not provide comments on the

amendments, but the Committee had been advised that individual Committee members could comment on the amendments on their own behalf.

Committee Member Scheer expressed concern about recent changes affecting consumer protections. He questioned the relative weight of the Residency Program requirement versus the variety of operative reports submitted. He also asked for clarification on how the Committee should conduct application reviews now that certain limitations have been removed.

It was suggested that limited permits should have been grandfathered in. Committee Member Gallia inquired on how many limited permits would be affected by the changes to BPC section 1638.1. Ms. Ortiz replied that eight permits would be affected.

Committee Member Scheer requested that a list of acceptable EFCS procedures be presented to the Board, noting that such a list showing the procedures in which applicants have demonstrated competence would help streamline case reviews. Dr. Fernandes, Dr. Punjabi, and Dr. Gallia agreed. Ms. Welch explained that BPC section 1638.1 did not specifically state the types of operative reports that had to be submitted with the permit application to obtain a Category I or II permit. As such, applicants submitted operative reports demonstrating the hard and/or soft tissue procedures they wished to perform, not understanding that those reports could limit the permit issued to them under a particular category. Because there are many types of hard or soft tissue procedures that could be performed, it seemed unlikely there could be a specific list of the types of procedures for which the applicants would have to submit operative reports to obtain unlimited category permit privileges. Committee Member Gallia stated that there were only a few procedures – rhinoplasty, otoplasty, and genioplasty for hard tissue procedures, and rhytidectomy (face lifts) [and blepharoplasty] for soft tissue procedures.

Ms. Welch also explained that as for grandfathering in the old limited permits, that would be confusing for applicants, Board staff, and the public going forward. The Board already has some licenses, registrations, and permits that have grandfathering provisions that become very difficult to manage long term. It was cleaner to require all limited category permit holders to apply for a new unlimited category permit.

Ms. Ortiz commented that if individual Committee members wanted to share their concerns about recent changes, they could do so at the November Board meeting, or they could submit their concerns in writing to the Executive Officer.

Committee Member Gallia asked Committee Chair Gramins whether the application review process had worked, and Committee Chair Gramins stated he thought there was no problem at all. He just wished the Committee would have been consulted on the

amendments. He asked for this item to be placed on the agenda to give the Committee Members clarification of what they needed to do under the new amendments.

Committee Member Gallia stated the amendments were not well-written to begin with and now the Board was tweaking the language. He reiterated that the prior permits should have been grandfathered in and asked if any Committee or Board members of associations consulted on the amendments.

Due to a scheduling conflict, Committee Member Gallia left the meeting at 4:27 p.m.

Committee Member Scheer reiterated his concerns about not being informed by the Board of legislative changes affecting the Committee. Dr. Gramins and Dr. Punjabi agreed.

Committee Chair Gramins stated the new 24 hours of continuing education required in the amendments was too much.

The continuing education requirement was inserted to replace the prior requirement that every six years, prior to the renewal of the permitholder's license and permit, the permitholder had to submit evidence acceptable to the Committee that the permitholder had maintained continued competence to perform the procedures authorized by the permit.

Committee Member Punjabi stated he thought it was time for the Committee to meet in person as it might be easier to hammer out these issues. Committee Chair Gramins responded that it was not the Committee's job to make a recommendation on the amendments; the Committee cannot meet to discuss it, so he was not sure it made sense to meet in person on this issue.

Committee Member Punjabi stated that Botox and facial fillers are not surgical procedures and are not too complex.

Committee Chair Gramins requested public comment on this item. There were no public comments made on this item.

Agenda Item 13: Adjournment

Committee Chair Gramins adjourned the meeting at 4:34 p.m.

MINUTES FOR THIS MEETING WERE PREPARED BY JESSICA DONALDSON, EFCS PERMIT PROGRAM COORDINATOR
