Agenda Item 1 - Approval of Minutes:

It was m/s/c (Benveniste/Hundley) to approve the minutes of the May 14, 2004 board meeting with the following corrections: Dr. Yokoyama clarified his quote by changing "they have never finished.." to "they have failed to...". The word Mandarin was misspelled.

Agenda Item 2 - President's Report:

Board President, Dr. Newton Gordon made the following statement: "Our accomplishments are indicators of a new era in the response of the board to public service and the profession. We have developed or set the stage for ongoing cordial and supportive relationships with both major groups – the consumers and the California Dental Association and its various components.

Our Enforcement is progressive with complaints managed judiciously and in a timely manner. The term "backlogged" have been removed from the lexicon of this unit. Legislation affecting dentistry is forward thinking and will ensure improved services to the public, increases in workforce as a primary focus. We must commend our

Examining Committee i.e., expert examiners for their dedication and service to the profession. The overall pass rate for Dental Hygiene and Dentistry are moving to a satisfactory level, but a confidence level of 90% must be achieved for correlation and validity of teaching and learning and examination. We still have far to go. We must be competitive with all examining groups, systems, while ensuring confidence in those entering the profession and at the same time provide the public with qualified and sensitive practitioners. A compounding issue is access to and disparities in dental care. The board must move out of its confines of licensing and enforcement and participate in activities to balance access to care. There are more than two hundred federally designated dental underserved regions in California.

Again, I would like to commend the people who have contributed immensely to the functioning of this board. I believe we have a troop here, which is doing a stellar job. I would like to give a special acknowledgement to what I call the workforce unit, and that goes to Dr. Terlet, Dr. SooHoo and Ms. La Donna Drury-Klein. The administrative staff have been doing a tremendous job in spite of having no money. Again, I must thank Ms. Gatlin and the troops in Sacramento for what they have done over the past year.

And finally, I could not have asked for a better supporting cast. Thank you."

Agenda Item 3 – Executive Officer's Report:

Ms. Gatlin reported that the budget was closed with an excess of \$81.24. Ms. Gatlin requested a meeting with the Executive Committee to go over last month's budget and to discuss how to approach this year's budget. The Department of Consumer Affairs has notified each board that there will be no deficiency letters submitted this year.

- There will be an increase in Worker's Compensation this year.
- Ms. Heather Lampert is the new appointment secretary.
- All new proposed legislation need to be submitted to the Department no later than October 25th.
- The Budget Change Proposals (BCPs) were denied by the DCA. Ms. Gatlin spoke with the Budget Officer and he has pushed our proposals forward. We need an augmentation for the Diversion contract, operating expenses, ATS, for an outside contractor to conduct the occupational analysis and exam validation for the training and practices of the oral maxillofacial surgeons, which was part of the Sunset Review recommendations. More money has been requested for ongoing licensing, law & ethics and fees paid to experts reviewers for cases.
- The Spanish and Mandarin versions of the Facts About Fillings are now available on the Dental Board's website.

Dr. SooHoo commented his request for Computer Based Testing (CBT) - moving part of the licensing exam to the computer. He requested funding several years ago. He would like for that to be put back on the agenda. The exam is getting outdated and needs to go to CBT. After the Occupational Analysis Committee meeting, he would like to implement that as soon as the meeting is complete.

Changes to the RT exam is going to limit the number of candidates allowed to test at

the schools, because he is changing from a bench to actual typodonts on a manikin head. This change is going to restrict the number of what the schools can accommodate. Dr. SooHoo would like to add more examinations, subject to the budget, looking at the RT, whether the funding can come from whatever sources we find because there is going to be a problem in the future.

Dr. SooHoo also, requested a report for the board to look at the cost as far as giving the Restorative Technique Exam, the Clinical Exam and especially the Licensure by Credential program.

Agenda Item 4 – Enforcement Fiscal Year 2003/2004 Statistics

This item was provided as information only.

Agenda Item 5 – Adoption of Modified Text and Effective Date to 16 CCR § 1041 – RT Exam

It was m/s/c (Kaye/Klein) to adopt the modified text and delegate to Ms. Gatlin, the authority to continue with the rulemaking process in the event no negative comments are received.

It was m/s/c (Kaye/Klein) to set the effective date after January 1, 2005.
