no less than three provider renewal periods.

(f) Withdrawal of Provider Registration

The Board may withdraw or place restrictions on a provider's registration if the provider has disseminated any false or misleading information in connection with the continuing education program, fails to comply with regulations, misrepresents the course offered, makes any false statement on its application or otherwise violates any provision of the Dental Practice Act or the regulations adopted thereunder.

(2) Any provider whose registration is withdrawn or restricted shall be granted a hearing before the executive officer or his or her designee prior to the effective date of such action. The provider shall be given at least ten days notice of the grounds for the proposed action and the time and place of such hearing.

Chapter 2. Dentists

Article 5. General Anesthesia and (Moderate) Conscious Sedation

§ 1043. Definitions.

(a) For purposes of this article, “direct supervision” of deep sedation or general anesthesia means the permit holder permittee is in the immediate presence of a patient while deep sedation or general anesthesia is being administered to that patient and that the permit holder permittee or a member of the permit holder's permittee's staff directly monitors the patient at all times.

(b) For purposes of this article, “outpatient” means a patient treated in a treatment facility which that is not accredited by the Joint Commission on Health Care Organizations or licensed by the California Department of Public Health Services as a “general acute care hospital” as defined in subdivision (a) of Section 1250 of the Health & Safety Code.

(c) For purposes of section 1682(a) of the Code:

(1) a patient under deep sedation or general anesthesia shall be considered “sedated” for that period of time beginning with the first administration of deep sedation or general anesthetic agents until that time when the patient is again conscious with a full return of protective reflexes, including the ability to respond purposely to physical stimulation and/or verbal command, when no additional agents will be administered, the
dental procedures have been completed, and after the maximum effects of all agents have been experienced by the patient;

(2) a patient under consciousness moderate sedation shall be considered "sedated" for that period of time beginning with the first administration of consciousness moderate sedation agents until that time when no additional agents will be administered, the dental procedures have been completed, and after the maximum effects of all agents have been experienced by the patient.

(d) For purposes of Section 1682(b) of the Code, a patient shall be deemed to be "recovering from" consciousness moderate sedation, deep sedation, or general anesthesia from the time the patient is no longer "sedated" as that term is defined in subsection (c) above until the dentist has evaluated the patient and has determined the patient is responsive, alert, has stable vital signs and is ambulatory and/or capable of being safely transported.

(e) For purposes of this article, "applicant" refers to applicants without permits, as well as permit holders subject to re-evaluation.
